## **Hey Willie**

## **Waylon Jennings**

Hey Willie let's pack up and catch us a slow train And go back to Phoenix to a far brighter day Where stars were for shining in the Arizona sky And music meant more than fortune or fame

Willie, we wandered from border to border Singing our stories and living our songs Seems the farther we go, all that grows closer Is a mind full of memories we made years ago

Hey Willie let's pack up and catch us a slow train And go back to Phoenix to a far brighter day Where stars were for shining in the Arizona sky And music meant more than fortune or fame

We rolled through the towns like a bus load of gypsies Motels and hotels ain't no place to stay
The favors we're taking, the money we're making
Won't pay for the living, we're giving away

Hey Willie let's pack up and catch us a slow train And go back to Phoenix to a far brighter day Where stars were for shining in the Arizona sky And music meant more than fortune or fame
