

## John's Back in Town

Waylon Jennings

John does some singin' they call him a star  
He plays with a hillbilly band  
He goes lots of places picks his guitar  
Old John ain't a home lovin' man.

John's got a woman he calls her his queen  
He buys her them city made clothes  
And she's 'bout the sweetest that I've ever seen  
There is someting that John never knows.

When John is out croonin' I'm out with his queen  
Passin' his money around  
But if you look for me and I can't be se  
You'll know that John's back in town.

When John's out a tourin' I wear his best suits  
Smoke up his old big cigars  
I lie with his woman, wear out his boots  
Shauffer his limousine cars.

When John's making money he keeps on the go  
So if you should hear he's around  
Buy one of his records or go see his show  
Help me keep old John out of town.

When John is out croonin' I'm out with his queen  
Passin' his money around  
But if you look for me and I can't be seen  
You can figure that John's back in town...
