

# Rough and Rowdy Days

Waylon Jennings

You keep barrelin' on and you don't look back  
your mind is gone  
and you're losing track of who you want to be  
and you think you're free  
and you think you're free

when you still want more and you've done it all  
you're kickin' doors and climbin' walls  
you've gone far enough  
you need to straighten up  
you need to straighten up

Girl you came along and just in time  
to show me the way  
while I was wadin' through  
my rough and rowdy days

How can you know what life's about  
when upside down is inside out  
you know you need some help  
you can't help yourself  
you can't help yourself

Girl you came along and just in time  
to show me the way  
while I was wadin' through  
my rough and rowdy days

Girl you came along and just in time  
to show me the way  
while I was wadin' through  
my rough and rowdy days
