She Loves Me (She Don't Love You)

Waylon Jennings

Well, now I can see You're dancin' every dance with her And it seems to me You're dancin' much too close to her.

When you sat at our table
You sat next to her
But I know that it's true
She loves me, she don't love you.

Well, let me tell you friend I'm wise to your lies Even tellin' me that I'm the guy for her And if a little thing you do and say Has given you away you're in love with her.

Well, just one more dance with her And friend you're gonna see Oh, what it's like to hit the floor And do a little dance with me.

Here's your coat there's the door I think you better leave 'Cause I just know that it's true She loves me, she don't love you.

Well let me tell you friend I'm wise to your lies Even tellin' me that I'm the guy for her And if a little thing you do and say Has given you away you're in love with her...
