

She's Looking Good

Waylon Jennings

Everybody that I see
Says she's looking good
There's no doubt about it
She's looking good.

There's just one thing that worries me
It happened this way before
She's looking good and I'm afraid
She'll find what she's looking for.

There was a time her love was mine
And I was her whole world
But from time to time she changed her mind
Then she's a different girl.

She'll paint her face and comb her hair
A picture that I adore
And I die each time so afraid she'll find
What she's looking for.

Mhm, she's looking good.
Mhm, she's looking good...
