

Talk Good Boogie

Waylon Jennings

Got me a habit that I surely got to quit
Ain't got a habit, just hooked a little bit
Sure I'd come to see you but you're nearly never home
Wouldn't call at all but you give good phone.

Talk good boogie but you won't get down
Tell me that you love me
But you won't come around
Talk good boogie but you won't get down.

Just when I'm ready think I might got a chance
They change all the music when I'm learning how to dance
Slippin' and slidin' just as much as you can
You been a good friend but you hide again.

Talk good boogie but you won't get down
Tell me that you love me
But you won't come around
Talk good boogie but you won't get down.

Talk good boogie but you won't get down
Tell me that you love me
But you won't come around
Talk good boogie but you won't get down...
