

Turn It All Around

Waylon Jennings

You can see forever standin' on a mountain top
The only way to break the drop is find the long way down
It's not that I'm complainin', I know I've had my day
I'd just like to find a way to turn it all around

Boots and jeans and diamond rings and limosines that I got for
a song
Knowin' all along the way I'll wake up one day and find it gone
It's not that I'm complainin', I know I've had my day
I'd just like to find a way to turn it all around

Boots and jeans and diamond rings and limosines that I got for
a song
Knowin' all along the way I'll wake up one day and find it gone
It's not that I'm complainin', I know i've had my day
I'd just like to find a way to turn it all around
