

Waking Up with You

Waylon Jennings

Like a sail that's torn and can't ride the wind
Here I stand looking both ways again
I'm a dollar short on a three dollar night
Turning left 'cause I ain't got no right

I keep thinking this time maybe it
But somehow all the pieces just won't fit
But I'll always have a dream to hold on to
Just as long as I keep waking up with you

You told me once that storms never last
I know it's true oh, so true
Just when I think the clouds will never pass
Like a silver lining you come shining through

I know you'll always be there right or wrong
Together we'll keep on keeping on
And I'll always have a dream to hold on to
Just as long as I keep waking up with you

You told me once that storms never last
I know it's true oh, so true
Just when I think the clouds will never pass
Like a silver lining you come shining through

I know you'll always be there right or wrong
Together we'll keep on keeping on
And I'll always have a dream to hold on to
Just as long as I keep waking up with you

I'll always have a dream to hold on to
Just as long as I keep waking up with you
