

You Beat All I Ever Saw

Waylon Jennings

I've walked through many towns with fortunes lost and found
Seen the beauty of this land made by nature and by men
But when I leave I don't look back for I've only left my tracks
I've crossed the burning bridges and walked through miles of sand
Seen the lawlest in the law you beat all I ever saw

I've dreamed a million miles about your eyes and smiles
I know I've loved the best I can't be content with last
I've scanned the skies of blue for just one glimpse of you
But they threw away the mold of a love that's grown so cold
Your heart would never thought you beat all I ever saw
