

## Johnson City

Wayne Hancock

Don't feel like myself this evenin'  
Must be this old city air  
No I ain't been very too well  
Must be this old city air  
I been a spinnin' my wheels  
Don't think I'm goin' nowhere  
Well I know my baby loves me  
She tells me all the time  
Yeah I know my baby loves me  
'Cause she tells me all the time  
If that gal ever leave me  
I'm gonna lose my mind

I'm goin' west through Johnson City  
I'm leavin' town today  
I don't know where I'm headed  
How long I'm gonna stay  
I'm gonna cruise with my baby  
I'm gonna get on I-10 and drive  
I'm goin' west through Johnson City  
Me and that baby of mine

(Ah, Miller time now)  
(Ah, lemme hear you sing on Buddy)  
Well some folks they entertain that  
That's the only savin' grace they know  
Yeah the liquor and wild women  
That's the only savin' grace they know  
All I need with me's my honey  
And a thousand miles of open desert road  
I'm gonna get us away out yonder  
Underneath that starry sky  
I'm gonna get us away out yonder honey  
Underneath that starry sky  
I gotta life for livin' brother  
Gonna see it pass me by

I'm goin' west through Johnson City  
I'm leavin' town today  
I don't know where I'm headed  
How long I'm gonna stay  
I'm gonna cruise with my baby  
I'm gonna get on I-10 and drive  
I'm goin' west through Johnson City  
Me and that baby of mine
