## **Sands Of Time**

Wayne Hancock

Yesterday I saw my baby walkin' Arm in arm with another man And it's strange 'cause she used to me my darlin' So long ago I think I understand I no longer dream about you Seldom the day you cross my mind I've gone on to a better way of livin' My heart is drippin' with the sands of time I hear that you're doin' well now Everywhere I go I see your name I used to wonder if somehow I wronged you But now I know no body shares the blame Goodbye my dear, the highway's callin' The rhythm of the road has won my mind The sun is out and darlin' and I'm so happy My heart is drippin' with the sands of time
