

## After the Laughter

Wayne Newton

After the laughter comes the tears  
Now that's what happens when your memory appears  
I try to act real happy since you said goodbye  
But sometimes when I least expect I break right down and  
cry

Oh..after the laughter comes the tears  
And my feelings never seem to be too clear

I never know how long I'll smile but it's usually just  
for a little while  
Cause after the laughter comes the tears

After the laughter comes the tears...  
And my feelings never seem to be too clear  
I never know how long I'll smile but it's usually just  
for a little while  
Cause after the laughter comes the tears
