

Not Meant For Me

Wayne Static

You think you're smart, you're not, it's plain to see
That you want me to fall off, it's killing me
Let's see, you've got the gall, come take it all

The jury is coming, coming to tear me apart
All this bitching and moaning, come on, it's on

I'm trapped in this world, lonely and fading
Heart broken and waiting for you to come
We are stuck in this world that's not meant for me, for me

So what you got? One last shot it seems to me
That you're not needed, come on, it's killing me
Let's see, you've got the gall, come take it all

The jury is coming, coming to tear me apart
All this bitching and moaning, come on, it's on

I'm trapped in this world, lonely and fading
Heart broken and waiting for you to come
We are stuck in this world that's not meant for me, for me

Come on, it's on, come on, it's on
Come on, it's on, come on, it's on

I'm trapped in this world, lonely and fading
Heart broken and waiting for you to come
We are stuck in this world that's not meant for me, for me

I'm trapped in this world, lonely and fading
Heart broken and waiting for you to come
We are stuck in this world that's not meant for me, for me

For Me
