

# She

Wayne Static

We are all glass  
And our friends electric  
This is our Dark Nation  
This is my secret weapon  
And you know when it's driving  
Could I feel more alive?  
Always thriving  
And she is everything you see

She  
Dirty Dreamer  
She  
Instigator  
She

Are you anywhere?  
Aries  
Yeah  
It's the game  
Yeah  
All the same  
She make the world come alive

I'm not scared  
Always be prepared  
Living life like a scarecrow  
There's no time for sleep  
And I'm not scarred  
Though peeling away  
Peeling away all the layers  
This is the real me  
This is the real me
