

# **Thunder Invader**

**Wayne Static**

Distant commencing  
Crush the offensive  
Fire the drum that  
Jump starts the turbine  
Pinching the hole  
Through every existence  
Turn it up

Thunder  
Invader  
Distorted  
Creator

Carving the sky  
The flares split the darkness  
Steel away to bring the  
Deafening silence  
Format the noise  
To low oscillation  
Decimate

Flares rise  
Pierce the night sky  
Now hear  
Nowhere to hide  
Invader!
