

Here In This Town

Wayne Watson

Here in this town
They all all know your name
But the way they treat you
They ought to be ashamed
It's getting hard to hold your head up here in
This town

Turn around
Turn around
You don't want to see us now
I'm not sure one righteous man could be found
Here in this town

Here in this town
They all say your name
Sunday, it's holy
Monday profane
How long before you bring this place to the ground

Here in this town
They all know the truth
Quote verse and chapter
But they don't know you
It's living happy ever after here in this town
Yeah
Ooh, yeah

Here in this town
Here in this town, Ooh
Yeah, here in this town
