

# Merciful Heaven

Wayne Watson

Merciful heaven, have mercy on me  
Seven times seven, I've always believed  
You've got the power and I have the need  
Merciful heaven, have mercy on me

Some people want what they deserve  
But not me, no, I know my heart too well  
And I've just barely got the nerve  
Just to make this one request  
And I know that You will hear me

This is the place where I can live  
At Your feet forgiven perfectly  
'Cause I've got nothing good to give  
Nothing more than just myself  
I know You want for nothing else
