

# Close Your Eyes

Wayne Wonder

Sometimes it's stressful, but I gotta end all the pain  
Gotta Gotta Get Get Get Away  
Wooo Wooo  
Gotta Get Get Get Get Get Get Get Get Get Away

Close your eyes (your eyes)  
Spread your wings and fly  
Baby you and I  
Elevate in mind (your mind)  
Way up to the sky

Baby you and I  
Let's get away  
On the wings on love  
Let's fly away  
Like a pair of botteld doves

They keep watching  
Every move I make  
Still yapping  
What they don't know so they speculate  
Is it shocking?  
Don't you know I always set the pace  
Still mopping  
I leave no evidence I leave no trace

Close your eyes (your eyes)  
Spread your wings and fly  
Baby you and I  
Elevate in mind (your mind)  
Way up to the sky (up and away)

Baby you and I  
So amazing  
Sunshine in the rain  
Stimulating  
Every nerve up in my brain  
My hearts for saving  
Feels like I'm gunna go insane  
Sometime frustrating  
But I must endore the pain

Close your eyes (your eyes)  
Spread your wings and fly  
Baby you and I  
Elevate in mind (your mind)  
Way up to the sky (up and away)

Baby you and I  
Let's get away  
On the wings on love  
Let's fly away  
Like a pair of botteld doves

Get Get Get Get Get Get Get Get  
Get away, so

Close your eyes (your eyes)  
Spread your wings and fly  
Baby you and I  
Elevate in mind (your mind)  
Way up to the sky (up and away)
