

Chick Lit

We Are Scientists

I wouldn't be caught dead with your kind
and all the hot-shot carrying on that you do.
It's your only move.

I wanna see you all buried alive
and I'll be up top carrying on over you,
only for you.

I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes,
and all is forgiven, if all is forgiven.
I asked you nicely once but I won't do that again

You know that we've got some axes to grind.
We've got some sharp-tongue carrying on to do,
it's your only move.

I wanna see you all buried alive
and I'll be up top carrying on over you,
only for you.

I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes,
and all is forgiven, if all is forgiven.
I asked you nicely once but I won't do that again

I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes,
and all is forgiven, if all is forgiven.
I asked you nicely once but I won't do that again
again
