

Let's See It

We Are Scientists

I realize that I'm just naturally inclined
To go and let you down, alright
I've heard this argument made thousands of times
I guess I get it now, alright

If physics dictates things are going away
Just when the pressure's on, alright
Science will just have to surrender to fate
'Cause I won't let you down, alright

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

You know that I wouldn't say
Something I didn't mean
How many times can this be repeated
Before you believe that I do believe?
I believe it

I know that evidence is gonna suggest
That I will let you down, alright
Given our history what can you expect?
I guess I get it now, alright

This might just buckle under all of the weight
Now that the pressure's on, alright
All I can ask is that you muster the faith
That I won't let you down, alright

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

You know that I wouldn't say
Something I didn't mean
How many times can this be repeated
Before you believe that I do believe it?

I wouldn't say
Something I didn't mean
How many times can this be repeated
Before you believe that I do believe?
I believe it, oh, I believe it

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

You know that I wouldn't say
Something I didn't mean
How many times can this be repeated
Before you believe that I do believe it?

I wouldn't say
Something I didn't mean
How many times can this be repeated
Before you believe that I do believe?
I believe it

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
Oh, I believe it
Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh
