

Return the Favor

We Are Scientists

Personality is worthless
If love is
What you drew out of me
Is a personal burden

Tonight, it's occurred to me
I might just return the favor
I hope that you're not afraid of asking

I've never been impressed
By lectures or censure
But its been for the best
I'm better, than ever

Tonight, it's occurred to me
I might just return the favor
I hope that you're not afraid of asking, try me

Tonight, it's occurred to me
I might just return the favor
I hope that you're not afraid of asking,
Try me, try me, try me
