

# Through Hell

## We Are the Fallen

Are we alone?  
Is there more than we believe in?  
Haunting these walls  
Shadows crawling out, revealing  
Fear in me, Stays in me

The nightmares inside here  
My dark fears  
All in my head again  
The nightmares I might hear  
All my tears pull me through hell again

I wake in the night  
And I pray that I've been dreaming  
There's nowhere to hide  
From this nightmare calling to me  
Fear in me, Stays in me

The nightmares inside here  
My dark fears  
All in my head again  
The nightmares I might hear  
All my tears pull me through hell again

The nightmares inside here  
My dark fears  
All in my head again  
The nightmares I might hear  
All my tears pull me through hell again

The nightmares inside here  
My dark fears  
All in my head again  
The nightmares I might hear  
All my tears pull me through hell again
