

# Dreaming Out Loud

## We Are the In Crowd

I'm sifting through memories  
Looking for answers in the past  
A dose of reality  
I hate the taste  
But I know it's for the best

Connecting dotted lines  
Taking steps to find  
A way to fix myself  
I try to redefine  
All the things that hold me back  
Out of this mess

I think I slept right through the good part  
But somehow I'm still tired  
I know it's time to make a new start  
I can't seem to find a way  
To walk out of my head  
I'm afraid of what I'd miss  
I think I slept right through the good part  
So here's to dreaming out loud

It's like I've seen everything  
But I can't remember when  
Took more pictures than memories  
I wonder if I was ever there at all

Connecting dotted lines  
Taking steps to find  
A way to fix myself  
I try to redefine  
All the things that hold me back  
Out of this mess

I think I slept right through the good part  
But somehow I'm still tired  
I know it's time to make a new start  
I can't seem to find a way  
To walk out of my head  
I'm afraid of what I'd miss  
I think I slept right through the good part  
So here's to dreaming out loud

Here's to dreaming out loud  
Oh, I'm just dreaming

I think I slept right through the good part  
But somehow I'm still tired  
I know it's time to make a new start  
I can't seem to find a way  
To walk out of my head  
I'm afraid of what I'd miss  
I think I slept right through the good part  
So here's to dreaming out loud

Here's to dreaming out loud  
Here's to
