

Windows In Heaven

We Are the In Crowd

Seems like a dream
Awaken before it was done
How could this be?
I walked alone
But sometimes I picture your hands held in my own
My... face too late now

If you could see me now
Would you be please and glad
I'm doing fine
But sometimes I cry
When I see your face
Are there windows in heaven
To see me now
Through all the sky and clouds
Within my life
With a heart full of pride
When I see your face
Are there windows in heaven

You didn't kneel
But you left behind more than you know
More than I see
Still can't let go
Your image I can't say goodbye
Here from below
My... too late now

If you could see me now
Would you be please and glad
I'm doing fine
But sometimes I cry
When I see your face
Are there windows in heaven
To see me now
Through all the sky and clouds
Within my life
With a heart full of pride
When I see your face

Take me back to the times
Together we'll seek out, together we'll live out
All of the rest of our lives
For just one more minute
I can get you in it
One moments of feelin those times
Face it's too late now

If you could see me now
Would you be please and glad
I'm doing fine
But sometimes I cry
When I see your face
Are there windows in heaven
To see me now
Through all the sky and clouds
Within my life

With a heart full of pride
When I see your face
Are there windows in heaven
To see me now
Through all the sky and clouds
Within my life
With a heart full of pride
When I see your face
Are there windows in heaven
