

Cutting Our Teeth

We Are the Ocean

We're cutting our teeth and taking this as far as we can go
It's in our blood and we'll try our hardest just to be ourselves,
to be ourselves

But the only thing that matters is what tomorrow brings
With my head in my hands and my eyes looking out to the sun
(With my head in my hands and my eyes looking out to the sun)
But is it too much for me to ask for?
The waiting goes on and on and on and on and on
Time's flying by and I hope that we're not too late

We're cutting our teeth and taking this as far as we can go
It's in our blood and we'll try our hardest just to be ourselves
s
We've put our hearts and souls in to making this our own
(Everything we had, it was never the same)
It's up to us to keep our wits and move along

I can't sleep without these noises, I can't sleep
We won't change the world
But we'll have a damn good time (a damn good time)

We're cutting our teeth and taking this as far as we can go
It's in our blood (we won't change the world, but we'll have a
damn good time)
We'll try our hardest just to be ourselves (we won't change the
world but we'll have a damn good time)
