

Shut up just listen to what I've to say
I've been dying inside, just dying to relay
Sick of being the only one
Sick of seeing
Sick of trying so hard
When do I start?
Sitting in the dark
I hope my eyes to just believe so hard
Where do I start?

So goodbye
I'm leaving it forever
Goodbye
I'm sick of this disease
Goodbye
I'm leaving it forever
Never coming back!
Never coming back!

I can't breathe
This situation is getting worse than I can see
I'm getting better anytime soon
I'll just go back and dig myself out of this alone
