

## Bring To Life

We As Human

Tell me that I'm still breathing  
Tell me that I'm not fading now  
I'm not fading out

Tell me that I'm not crazy  
Help me to make sense of it all  
To make sense of it all

So wash it all away  
And move it like a storm  
The ocean's overflowing now  
You bring to life all that is broken  
You can turn the tide before it's too late  
Cause I'm not afraid of anything  
When You burn like a fire inside  
You bring to life

Show me hope for healing  
Show me signs of who You are  
I want to see Your heart

You bring to life

You bring to life all that is broken  
You can turn the tide before it's too late  
Cause I'm not afraid of anything  
When You burn like a fire inside  
You bring to life

You burn like a fire inside  
(You bring to life)  
The ocean's overflowing now  
I'm not afraid of anything  
When You burn like a fire inside  
You bring to life
