

# Through the Darkest Dark and Brightest Bright

We Came As Romans

Through the trials,  
And the gaps in the tree  
From what once was a seed,  
To what we've grown to be

Through the trials,  
And the gaps in the tree  
From what once was a seed,  
To what we've grown to be  
Travelled miles,  
Across the oceans and seas  
Nothing's out of our reach,  
Living positively

Whoa, whoa...  
This is our song to remember,  
Whoa, whoa...  
All the places we have been  
Remember every dream, the things we said  
Our hope will never end  
(Remember every word we said)  
Whoa, whoa...  
This is our song to remember

Through the darkest dark  
And the brightest bright,  
We walked this path together  
Through the hardest parts  
Of all our lives (all our lives)  
We carried one another

Heads high, arms locked,  
We move on  
Keeping close to where we began  
Open eyes, don't stop,  
We stay strong  
Tracing back to where our roots grew in

Whoa, whoa...  
This is our song to remember,  
Whoa, whoa...  
All the places we have been  
Remember every dream, the things we said  
Our hope will never end  
(Remember every word we said)  
Whoa, whoa...  
This is our song to remember

This is our song to remember  
This is our song to remember

Never stopped moving forward,  
Never forgot what we're made for  
Always changing, but always true  
A tree stands strong, but not without it's roots

Never stopped moving forward,

Never forgot what we're made for  
Always changing, but always true  
A tree stands strong, but not without it's roots

Whoa, whoa...  
This is our song to remember,  
Whoa, whoa...  
All the places we have been  
Remember every dream, the things we said  
Our hope will never end  
(Remember every word we said)  
Whoa, whoa...  
This is our song to remember

This is our song to remember  
This is our song to remember
