

## What I Wished I Never Had

## We Came As Romans

Don't catch me at the wrong time  
Or you will feel my wrath  
The one I wished I never had (wished I never had)

I need to rid myself of resentment  
And every last bit of it  
If I'm going to live up to the things I've written  
I need to clear my mind of this anger  
And all the rage that I've held near  
If I'm going to live up to the words I've spoken

BUT I haven't YET  
Letting go  
Is how I can start to fight my way  
Out of this hole I've dug  
In this war against myself (this war against myself)  
But I haven't yet (but I haven't yet)

Don't catch me at the wrong time or you will feel my wrath  
The one I wished I never had (wished I never had)  
I wish I never had this demon inside  
I wish I knew how to cast it out  
I wish I never had this demon inside  
I wish I knew how to cast it out

But I fear it will never leave me (but I fear it will never leave me)

I need to rid myself of resentment  
And every last bit of it  
If I'm going to live up to the things I've written  
I need to clear my mind of this anger  
And all the rage that I've held near  
If I'm going to live up to the words I've spoken

Letting go, Just let it go  
I know, I know (4x)

I know I need to let go  
Of everything that has  
Ever made me think myself better  
I'm not better than anyone else  
Of anything that's filled me with anger  
That I have taken out on everyone else (on everyone else)

These demons will never leave me  
I can only find ways to not let them out  
These demons will never leave me  
But I control them, not the other way around...
