

We're coming for you we sail on a sea of hope
We'll come find you we see by your guiding light
No other feeling, no other needed, to stick with a feeling that
we'll be up close and warm with you when the day gets dark
Crossing borders
As we move forwards
The swaying actions
A motion circular
All upon a suspended moment
As we move close a resounding chorus rings out
That steady rhythm's the sound of our beating hearts.
No other feeling, no other needed, to stick with a feeling that
we'll be up close and warm with you when the day gets dark
Crossing borders
As we move forwards
The swaying actions
A motion circular
All upon a suspended moment
As we move close a resounding chorus rings out
Come on grab it
Stir up for us
We're on fire
