## We Have Band

We're coming for you we sail on a sea of hope  
We'll come find you we see by your guiding light  
No other feeling, no other needed, to stick with a feeling that  
we'll be up close and warm with you when the day gets dark  
Crossing borders  
As we move forwards  
The swaying actions  
A motion circular  
All upon a suspended moment  
As we move close a resounding chorus rings out  
That steady rhythm's the sound of our beating hearts.  
No other feeling, no other needed, to stick with a feeling that  
we'll be up close and warm with you when the day gets dark  
Crossing borders  
As we move forwards  
The swaying actions  
A motion circular  
All upon a suspended moment  
As we move close a resounding chorus rings out  
Come on grab it  
Stir up for us  
We're on fire
