

## Festival Music

We the Kings

I met this girl  
Said she was from L.A  
I love the beach  
My heart is on the page

We got to talking yeah  
She couldn't feel her face  
Festival music  
She's finally out her cage

She pulled me close  
She had something for me  
I loved the taste  
I felt it take over me

We started dancin' yeah  
I couldn't feel my feet  
Festival music, yeah  
Right now it's all I need

3 stages  
2 days and  
A few friends

We've waited  
Too long for  
This weekend

(Whoa)  
(Whoa)  
And I feel alive  
(Whoa)  
I feel alive  
(Whoa)

And if I say what I thought  
I would never hold you  
Got a cut off shirt  
Slipping off your shoulder

Ripped jeans make ya dance  
Just a little bit lower  
Makeup on your face  
To look a little bit older

Hey come on girl you know  
I don't need a minute  
You know it really gets good  
When we really get in it

You wanna take it too fast  
But you'd never admit it  
You wanna take it all back  
But you already did it, aye

I met this girl  
We snuck right on the stage

We lost our friends  
Somewhere inside the haze

We started laughing though  
The nights turned into days  
Festival music (yeah)  
We're finally out the cage

She pulled me close  
She had something for me  
I loved the taste  
I felt it take over me

We started dancin' yeah  
I couldn't feel my feet
