Heaven Can Wait

We the Kings

Here's a song for the nightsI think too much And here's a song when I imagine us together Here's a song for when we talk Too much and I forget my words

Heaven can wait up high in the sky It's you and I Heaven can wait deep down in your eyes I'm yours tonight Lay your heart next to mine I feel so alive Tell me you want me to stay, forever 'Cause heaven can wait

Here's a song for the one who stole my heart And ran so far that cupid couldn't catch her Here's a song for the kid who aims so high He shot her down

Heaven can wait up high in the sky It's you and I Heaven can wait deep down in your eyes I'm yours tonight Lay your heart next to mine I feel so alive Tell me you want me to stay forever 'Cause heaven can wait

Here's a song for the nights I drink too much and spill my words

Heaven can wait up high in the sky It's you and I Heaven can wait deep down in your eyes I'm yours tonight Lay your heart next to mine I feel so alive Tell me you want me to stay forever 'Cause heaven can wait

'Cause heaven can wait 'Cause heaven can wait
