

Over You

We the Kings

There's so much I wanna say
Something you won't understand
I'm already gone today
Off to be a better man
But it's true
That I'm over you

I know it took a little while
I know I cried a couple tears
Every step was like a mile
Every day a million years
But it's true
I'm finally over you

And I'm on my way

Here's to the nights I cared,
To the night you left
I'll pour you a drink
And toast to the end
Here's the scene of the crime
Left me here to die
I'm finally over you;
I'm alive

When it rains it really pours
Now the sun is kicking in
You used to say I made you sick
Now go and take your medicine
Cause it's true
That I'm over you

And I'm on my way

Here's to the nights I cared,
To the night you left
I'll pour you a drink
And toast to the end
Here's the scene of the crime
Left me here to die
I'm finally over you;
I'm alive

Cause these bitter days are only a memory
Better days are just days away
Cuts both ways
Cause you're covered in Band-Aids, now

Here's to the nights we shared,
To the night you left
I'll pour you a drink
We'll toast to the end
Here's the scene of the crime
Here's our last good-bye
I'm finally over you

Here's to the nights I cared,

To the night you left
I'll pour you a drink
And toast to the end
Here's the scene of the crime
Left me here to die
I'm finally over you;

I'm alive
I'm alive
I'm alive
Alive
I'm finally over you;
I'm alive
