

Stone Walls

We the Kings

The stars fade, the earth shakes,
The poison's on your tongue.
The lost plans, the last dance,
Oh god, what have you done?

I can see the fever spreading,
I can feel the faith is gone,
Even though it's all you've wanted.

Stone walls will fall,
Young hearts will break,
For so long, we're so strong,
We shine until we fade,
But don't stop burning.

On gold streets, the dust sleeps,
For you, the flames still dance.
The sky's changed, a new day,
Are these the same two hands?

I can see the fever breaking,
I can feel the faith come home,
Everything you've ever wanted.

Stone walls will fall,
Young hearts will break,
For so long, we're so strong,
We shine until we fade.

We are all we are,
We are all we are,
We are all we are,
we are who we are

Stone walls will fall,
Young hearts will break,
For so long, we're so strong.
We shine until we fade,
But don't stop burning.

We are all we are,
don't stop burning,
We are all we are,
don't stop burning,
We are all we are,
don't stop burning,
We are who we are
don't stop burning
