

Summer Love

We the Kings

Last night I came across a girl
We met I said for the first time
I finally felt alive
I could not move my bones
I'm falling into what I know
I wont ever let go

Can you feel the love that summer
Time we're in love then it feels right
Oh now I, I cant wait for the summer
Time stops as we move closer
The sun drops into the water
Now I, I'm falling into summer love

Tonight, we are intertwined
And we are laying side by side
So dont you try
To fight, those feelings that you hide
Telling you It's okay girl
Or you will never know

Can you feel the love that summer
Time we're in love then it feels right
Oh now I, I cant wait for the summer
Time stops as we move closer
The sun drops into the water
Now I, I'm falling into summer love

Summer love
We're in love tonight

Can you feel the love that summer
Time we're in love then it feels right
Oh now I, I cant wait for the summer
Time stops as we move closer
The sun drops into the water
Now I, I'm falling into summer love
