

## Blue Mood

Webb Pierce

I'm in a blue mood and you've caused it all  
The night life is calling again it's plain to see the blues are  
stepping in  
So long now I've waited for your call I'm in a blue mood and yo  
u've caused it all  
Now I know you're seeing someone else but I love you in spite o  
f my soul  
Just couldn't resist I have to fall I'm in a blue mood and you'  
ve caused it all  
The night lights to you again are lureing and darling you're th  
e reason for my fall  
Your kind of love was my undoing I'm in a blue mood and you've  
caused it all  
The night lights to you...
