

If I Could Come Back

Webb Pierce

If I could come back when I'll leave this world I'd still want
to come back to you
Though you've never cared half as much as I
I pray that someday things would change
From here to eternity would seem just like a day
If I had your promise I know I'd find the way
If I could come back when I'll leave this world I'd still want
to come back to you
From here to eternity
