

## Life's Gone And Slipped Away

Webb Pierce

Funny how life can slip away before you know what's happened it  
's come and gone  
Oh you always think there'll be another day  
But before you know it life's gone and slipped away  
Ask the lonely man whose hair is filled with grey  
If he can count the hearts he's broken in his days  
I'll bet he'll bow his head and softly say  
Son before you know it life's gone and slipped away  
I know a lady who lived her life at play  
And I remember when she was so young and gay  
But now alone she cries for yesterday  
Before she knew it life has gone and slipped away  
Yes before you know it life's gone and slipped away
