Webbie

Niggas dont lost focus, calling all the excitement
Believing all these characters imitate my life and shit
Sleeping like a baby, quite like I be liking it
Smoking on that fire, chillin ready to strike again
Chrome on the tire, you damn right it is
Boom right by ya, leave a nigga with nightmares
The barrel spit fire, knock you out yo nike air
Send you to duck smashing, see you when I get in there
Make yo boy chill, be happy to seen your friend now
I can call the shadman telling ya'll niggas out of here
Creep will make your bed rock, pop yo in yo dreadlocks
It's gone take a whole lot of creatures to stop a headshot
You look back, niggas in all black, you scared now
Put you on TV channel 9, the headline
Put me on CD clowning that's what it is, fuck it

Like they ain't never seen somebody knock the goon off
Run up in your motherfucking house and get ruthless
Ain't no waking up, the alarm clock be useless
Round you taunting guns like you really gone use it
