You the realest I ever met  
Realest that I've ever seen  
And your body's so victorious  
You belong in a magazine  
You the realest, what's realer?  
You the realest, what's realer?  
I've been all around the world searching  
And I can't find nobody else realer than you

Much didn't tell you...  
All around me really every point you desert me down  
Just mess around we the messed around  
So I know they know me Muhammad Ali  
I filth like a butterfly I sting like a be  
I got a bad bitchy tamed you the MVP  
I might sway too different around  
Just wait until you catch that jungle fever  
I can't let no one see  
Real stones don't keep us coming  
All life just like a boss life  
And you know your boy life  
You go all night like what's like?  
Where the kush gonna lay us I ain't ever gonna cry  
But take my heart I ain't never gonna die  
So bitches still be sweet like I'm beating on high  
Never take my league bout the same around mine  
Imma leave you alone now cause I can see you've gone by

Girl you feel what I'm saying and I can feel your heart blazing  
Can nobody amplify your body like me baby  
You know you love me when you ride me and I drive you crazy  
I don't know how I get so real  
You know the streets made me  
Sweet life and boulevards  
Fuck around and had a baby  
And I'm growing up and I'm showing up
