

# Monsters of the Universe

Wednesday 13

Just kiss your ass goodbye  
they're falling from the skies  
and you can hear 'em screaming redrum  
and all your faith is hope  
it's been a fucking joke  
now who will be screaming oh my god

Another solar system  
controls the earth like a prison  
Total extinction of the human race  
is their prime mission  
Now they've tired to keep  
us all asleep  
now we're all dead  
Now they're here  
and ready to creep

you're going to get  
what you deserve  
Monsters of the universe  
there's no escape  
dead is assured  
monsters of the universe  
There is no faith  
there is no cure  
monsters of the universe  
It's pure intergalactic war

Their hands around your throat  
and as you gasp and choke  
you're gagging pleading screaming oh my god  
and he can't save you darling  
and that's the fucking problem  
because your puny god never was

Another solar system  
controls the earth like a prison  
Total extinction of the human race  
is their prime mission  
Now they've tired to keep  
us all asleep  
now we're all dead  
Now they're here  
and ready to creep

you're going to get  
what you deserve  
Monsters of the universe  
there's no escape  
dead is assured  
monsters of the universe  
There is no faith  
there is no cure  
monsters of the universe  
It's pure intergalactic war

now is the time

for you to die  
your final breath  
is what we'll take  
from you tonight  
there is no cure  
from this curse  
we are the monsters...  
...of the universe
