

## Baby Bitch

Ween

It's been a while since I've seen you smile  
But now you've come back again  
Came into the room and you saw my girl  
And you asked her how long it's been  
"A year" she said and you shook your head  
Said "I'm surprised it's gone on that long"

Baby, Baby, Baby Bitch  
For words I am at a loss  
Baby, Baby, Baby Bitch  
I'm better now please fuck off

What else you gonna say when while you're back  
on your stay  
Maybe something, maybe nothing, we'll see  
It's just too bad, you're beautiful I guess  
I wasn't for you and you weren't for me

Baby, Baby, Baby Bitch  
Please slip back into yourself  
Baby, Baby, Baby Bitch  
Go conquer someone else

People say, "How beautiful, how sweet, how kind"  
You're perfect, you've got nothing to hide  
But I, for one, have seen the sun  
And the bitch that you've locked up inside

Got fat, got angry, started hating myself  
Wrote "Birthday Boy" for you babe  
Now I'm skinny and sick and paranoid  
Without a cent to my name

Baby, Baby, Baby Bitch  
Fuck you, you stinkin' ass ho  
Most beauty I've seen  
you come from a dream  
But I can't close my eyes anymore  
No, I can't close my eyes anymore
