

Call Me Anything

Weeping Willows

The first time I met you
I touched you with my unclean hands
I was half honest
And my mind was on a spree
Don't say you love me
Because it means I might get hurt
But when you're smiling
I get goosebumps all over me.
You can call me anytime you want to
'cause I like you
You can call me anything you want to
'cause I like you
No one but you can call me baby
No one but you can call me ugly
You can call me anything you want to.
Ill put my cards out
On the table tonight
A need to be needed
Or was it love at last sight
When Im drugged up
I get loved up you see
I like dogs
'cause dogs are just like me.
You can call me...
