

## Hold Me

## Weeping Willows

I keep  
I keep friends away from me  
Don't say  
Don't say you're in love with me  
'cause it hurts  
As a child I learned to hide.  
Hold me for a while  
Then Im gonna have to leave  
Life is always black and white  
When you see through eyes of steel.  
Anger  
Anger is a part of me  
Ive been  
Loyal to stupidity  
I need  
Something solid so desperately.  
Hold me for a while  
Then Im gonna have to leave  
I have filled my head with hate  
Right from the start it was too late  
Hold me for a while  
Then Im gonna have to leave  
Disaster flirts with me  
I feel alive when knuckles bleed.
