

## Sunny Days

The sunshine warmed your flat  
It filled the room  
But I didn't notice that  
Cause I had you  
In full bloom  
I had you

Summer days in your bed  
Sunny days  
Summer days with you, babe  
Those were sunny days

Through the window of your room  
I heard birds  
Singing perfectly in tune  
For me and you  
Deep in June  
I had you

Summer days in your bed  
Sunny days  
Now they're all in my head  
Those sunny days
