

## True To You

### Weeping Willows

If you have ever had a broken heart  
If you've been pushed aside with dreams all torn apart  
Oh, then you must know that it's cold in the shadow of love...

Everytime I touch myself I wish it's you  
Everytime I hurt myself I think of you  
By lying to myself I am true  
True to you, true to you

I'll be freezing in that shadow of love  
I can't believe our only night could be enough  
Oh, what can I do? Cause I'll never get over you...

Everytime I touch myself I wish it's you  
Everytime I hurt myself I think of you  
By lying to myself I am true  
True to you, true to you

Everytime I touch myself I wish it's you  
Everytime I hurt myself I think of you  
I'm lying to myself  
I'm lying to myself

I'm lying to myself but I'm true  
I'm true to you, true to you  
True to you, true to you  
True to you, true to you  
True to you, true to you
