## **True To You**

## **Weeping Willows**

If you have ever had a broken heart If you've been pushed aside with dreams all torn apart Oh, then you must know that it's cold in the shadow of love...

Everytime I touch myself I wish it's you Everytime I hurt myself I think of you By lying to myself I am true True to you, true to you

I'll be freezing in that shadow of love I can't believe our only night could be enough Oh, what can I do? Cause I'll never get over you...

Everytime I touch myself I wish it's you Everytime I hurt myself I think of you By lying to myself I am true True to you, true to you

Everytime I touch myself I wish it's you Everytime I hurt myself I think of you I'm lying to myself I'm lying to myself

I'm lying to myself but I'm true I'm true to you, true to you True to you, true to you True to you, true to you True to you, true to you
