

## You're Happy Now

## Weeping Willows

I ain't getting anywhere  
Anywhere at all  
I still drift from door to door  
Me and my wayward soul  
Walk down Sucker Street  
I don't know what I'm looking for

You've found a world where you belong  
And I know you're happy now  
Every day your sky is blue  
Every night I pray for you

I wasn't right for you  
And you were wrong for me  
But loneliness is a disease  
I hope now time has healed  
The wounds I gave to you  
I didn't practice what I preached
