

# Freak Me Out

Weezer

ity streets at night  
can be so intimidating  
I'm not the toughest guy  
I gotta keep my eyes open  
You came out of no where

Man, you really freak me out  
I'm so afraid of you  
and when I lose my cool  
I don't know what to do  
I know you don't mean no harm  
You're just doin' your thing  
but man you really freak me out

Did I hurt you?  
Are you okay?  
Can I buy you a drink?  
Ahhh, what's the world coming to?  
You came out of no where

Man, you really freak me out  
I'm so afraid of you  
and when I lose my cool  
I don't know what to do  
I know you don't mean no harm  
You're just doin' your thing  
But man, you really freak me out

I'm gonna try to improve my manners  
Everyone, yes, everyone is my friend!

City streets at night (City streets at night)  
City streets at night (City streets at night)  
'Till the morning light ('Till the morning light)  
City streets at night (City streets at night)

Man you really freak me out  
I'm so afraid of you  
and when I lose my cool  
I don't know what to do  
I know you don't mean no harm  
You're just doin' your thing  
But man, you really freaked me out.
